

## Checkpoint 1

- Link to my github repository is <https://github.com/githubForProj/githubForProj.github.io>
- I choose <https://www150.statcan.gc.ca/t1/tbl1/en/tv.action?pid=1810024501> as the dataset. I would consider using Canadian data from December 2022 to December 2023.
- The reasons why I use this dataset are: 1. The size of this data set is large enough and the features are rich enough. 2. I am very interested in how the retail price of products changes over time.
